

The best of all worlds.

- Let us handle it, worry-free.
- Handle it yourself.
- Outsource it to a third party.

No other EMR Practice Management system gives you the power of Practice Pro.

Whether we're handling your billing, you're billing in-house or outsourcing with a medical billing company, Practice Pro allows you to follow the collection trail with features and reports that tracks the entire claim process. From initial evaluation all the way to aged reporting.

Claim Scrubbing, Denial Defense

There is no software on the planet that can change reimbursement patterns, denial codes or claim rejections but Practice Pro has the flexibility and EDI intelligence to arm you with the tools necessary to improve coding compliance, increase clean claim submissions and reduce re-bills.

Maximize Practice Revenue

Everyone wants to maximize revenue, but how? Whether you are billing Self-pay, paper claims, 5010 electronic claims or patient statements, PT Practice Pro automates billing requirements specific to the payer (Medicare, Medicaid, Workers Comp, No Fault/Auto Accident and all commercial insurances). We take away the aggravating payer-specific rules and details so you can maximize billable time, avoid claim rejections and focus on GETTING PAID FASTER!

Custom Denial and Appeal Forms

Tired of filling out claim appeal forms? We were tired just hearing about how long it takes, so we developed a solution. We've taken many of the major payers' charge appeal forms and integrated it into the system. Let PT Practice Pro fill out the boxes and export your appeal in PDF format.
